**DETAILED ACTION**

***Allowable Subject Matter***

Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose or teach an oscillating motor having a laminated rotor core and a laminated stator core with a coil wound around at least one pole and with a permanent magnet fixed to the stator core and facing the pole across an air gap. As applicant argued in his response of 3/3/2006, the Siegelman et al. device is not an oscillating motor. Lim et al. 6,870,295 B2 discloses an oscillating motor having a laminated stator and a laminated rotor but does not show any permanent magnet attached to the stator. No motivation has been found for combining features from the oscillating motor of Lim et al. with features from the rotary motor of Siegelman et al.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Judson H. Jones whose telephone number is 571-272-2025. The examiner can normally be reached on 8-4:30 M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Darren Schuberg can be reached on 571-272-2044. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
